MILWAUKEE DAILY SENTINEL.

VOLUME XV. MILWAUKEE, MONDAY MORNING, SEPTEMBER 27, 1858. NUMBER 229.

THE DAILY SENTINEL.

MONDAY MORNING, SEPT. 27.

TO ADVERTISERS.

☞ Business Notices appearing in the Local Columns will be charged 25 cents per line for the first, and 12½ cents for each subsequent insertion.

☞ Transient Advertisements must be paid for invariably in Advance.

☞ The number of insertions must in all cases be specified on the copy when handed in, as no "till forbid" Advertisements will be taken.

☞ Yearly Advertisers will be held strictly to Advertisement pertaining to their business. All other Notices will be charged at the Regular Rates.

☞ Extra displayed Advertisements, and those with large cuts, will be charged by the square for each insertion.

☞ Ordinary Notices of Deaths and Marriages inserted *free of charge*. Obituary Notices will be charged by the square, at half our usual rates.

The News.

The manager of the Atlantic Telegraph at Trinity Bay, says that they have received nothing intelligible from Valentia since the 1st of September, except feeling a few signals on the 23d. This shows that the connection still exists throughout the whole length of the cable. We hope yet that the present difficulties will be finally overcome.

The burned steamer, which we alluded to on Saturday, is believed to be the steamer *Austria*, which had 540 persons, passengers and crew, on board, all of whom, it is thought, have undoubtedly been saved. She had eight metallic life boats, each of which would carry 60 persons, and three or four ship launches, and the probability is that several other steamers were in the vicinity at the time of the disaster.

The trial of TOWNSEND, the alleged Capt. of the captured slaver *Echo*, was commenced at Boston, on Saturday, and a number of witnesses examined. TOWNSEND claims that he was only a passenger on board the vessel, and denies being captain. The further hearing of the case was postponed until Tuesday.

The ceremony of laying the corner stone at Binghampton, of the Inebriate Institute was witnessed by thousands of people.

A farmer was murdered near Chicago on Friday, and robbed of $18, while returning home, after disposing of a load of produce.

On the same day a woman was shot dead at Brooklyn, by the accidental discharge of a pistol, in the hands of her own son.

The captured Africans, who are now on board the *Niagara*, are unhealthy and dying.

R. N. WOODWORTH, the late cashier of the Brighton Bank, Boston, is a defaulter to that institution to the amount of $30,000.

The New York and Buffalo breadstuff markets were firm on Saturday, with an advance in the latter of 5 to 10c. on flour; round Milwaukee club sold in New York for $1,04, and extra do. in Buffalo for the same price. Our market was quite active on Saturday, at an advance of 1 to 2 cents on wheat, and the receipts of wheat were larger than for any previous day in the history of our city, while the shipments are also very large.

The weather continues pleasant.

Beautiful Consistency.

For years the staple cry of the "democracy" has been Know Nothingism. In season and out of season, its leaders have shouted themselves hoarse with it. Every republican candidate has been charged with it, and the whole republican party, with its thousands of foreign votes and a generous proportion of candidates of foreign birth, has been characterized as a know nothing organization. But while doing this, they not only nominate for Congress Judge Dunn, who submitted and advocated in the convention which formed our State constitution, a proposition to require a five years residence for foreigners before completing the period of naturalization, but sing the highest strains in his praise.—When Mr. Cole, who voted for Judge Dunn's proposition, ran for Congress, no denunciations were too bitter for *him*, but now there is nothing but honied words and enthusiastic landations for the author of the proposition. Excuses for Judge Dunn are plenty as blackberries, while the old cry of know nothingism is rung as lustily as ever on the republicans, though the republicans during the whole time they have been in the ascendancy of the State government have made no proposition nor move looking to any new or increased restrictions upon foreigners.

An honest party is "the democracy" and beautifully consistent are its leaders!—*Janesville Gazette.*

Conspicuous among those who raised this out cry against Judge COLE, and who relied upon this Know-Nothing argument to compass his defeat, were the English and German Democratic papers in this City. Day after day they teemed with denunciations of Mr. COLE and appeals to foreign-born electors to vote against him—his sole offence being that he voted for the amendment *which* Judge DUNN *offered and advocated.* Now, however, that Judge DUNN is the party nominee, not for a Judicial, but for a political office, these same consistent organs turn a short corner, endorse his democracy as unquestionable, and declare that his views on the suffrage question were "by no means proscriptive in their character," and that "every elector of foreign birth is perfectly satisfied with them!" They approve and applaud in Judge DUNN the identical "views" which they so bitterly denounced in Judge COLE.

The Pledges of the Administration.

Senator BROWN of Mississippi, a prominent Democrat, and a strong friend of the Administration, in a recent speech at Vicksburgh, thus told his constituents to what the President, the Administration and the National Democratic Party are *pledged:*

He called on the President before he left Washington, and Mr. Buchanan assured him in the most positive and unequivocal terms that he would appoint no man to office who held the opinion that Kansas ought to be admitted before she has a population which would entitle her to a representative in Congress, (according to the terms of the Conference bill,) and that he would decapitate every office-holder who expressed such a belief.

Gov. BROWN went on to state that he regarded this as a solemn pledge on the part of Mr. Buchanan, and although he considered him a "little weak in the back," he believed he would stick up to it. Whenever he (Gov. Brown) plighted his faith to any man, he always stuck to it, and he intended to hold Mr. Buchanan to his declaration.

Gov. Brown expressed his belief that Slavery and the Union could not exist together. He would not say that such *could* not be the case, but he simply meant to say that it *would* not.—He declared himself against the Union in that contingency, and did not care how soon the time might come.

We have no doubt that Senator BROWN tells the truth about MR. BUCHANAN'S "pledges" and the Democrats of Wisconsin may read therein the new test of political orthodoxy. Had a Republican Senator uttered these Disunion sentiments, the Democratic papers would have been loud in their censures; but they overlook all such transgressions among Senators of their own faith.

RESULT OF THE MAINE ELECTION.—The Kennebec *Journal* has Maine election returns embracing the whole State, with the exception of thirty-two small plantations, which last year gave in the aggregate 858 votes for MORRILL, (Rep.) and 892 for SMITH, (Adm.) The general footings, thus far, stand as follows:

Morrill,	60,156
Smith,	51,103
Morrill's maj.	9,053

The returns yet to be received will change these figures a trifle, and may increase the aggregate vote to 114,000.

In the Legislature the Senate will consist of thirty Republicans and one Democrat. The House, according to the latest reckoning, will contain one hundred and three Republicans and forty-eight Administrationists.

Rail Road Arrangements for the State Fair.

The Milwaukee & Mississippi, including the Southern Branch to Monroe, will carry passengers at half price; and animals and articles that are exhibited, Free, under certain, just and necessary regulations, which may be seen at full length in the Wisconsin *Farmer* for September. They will run as many special trains from the different points on the road as the occasion may require; going in the morning and returning in the evening; *and will also run their cars directly to and from the Fair Grounds.*

The Milwaukee & Watertown Road will carry on the same terms as the M. & M.

The Racine & Mississippi Road will carry on the same terms as the M. & M.

The La Crosse & Milwaukee, the Milwaukee & Horicon, and Chicago, St. Paul & Fond du Lac Roads will all carry passengers at half fare.

ILLINOIS ROADS.—The Chicago, St. Paul & Fond du Lac, the Chicago & Galena, and Illinois Central, will carry at half fare and half price all around.

Arrangements will probably be effected with the Steamboat Line on the Mississippi, running in connection with the M. & M. R. R., to accommodate the people of the north-west. More full particulars in relation to any of the foregoing arrangements when definitely known, will be published in the *Farmer* and local papers in due season.

Rather Late for an "If."

The Oshkosh *Courier*, which, like the *News* and other party organs, is sadly bothered by the nomination of a *Judge* for political office, in contravention of the well-established creed of the party, thus turns a sharp corner:

The State constitution provides that "Judges shall hold no office of public trust, except a judicial office during the term for which they are respectively elected, and all votes for either of them for any office except a judicial office, given by the Legislative of the people *shall be void.*"

If this is a valid provision, then the election of DOOLITTLE was a gross violation of it, but *if* it is null and void so far as members of Congress are concerned, then the election of Judge LARRABEE will not be a violation of it.

These "ifs" are very recent inventions. When Judge DOOLITTLE was elected, the entire Democratic Press and Party in this State took the ground that it was a gross, palpable, and inexcusable violation of the Constitution. But now they want to run Judge LARRABEE, the same press and party talk about "ifs," and plead a Black Republican precedent to excuse Democratic tergiversation.

Assessment of this City.

CITY CLERK'S OFFICE,
CITY OF APPLETON, Sept. 14, 1858.

The total amount of personal property assessed to be taxed for the year 1858 in the First Ward is $15,210
Value of Real Estate, 117,205
$132,415

The total amount of personal property assessed in the Second Ward, is 25,851
Real Estate, 160,145
185,796

The total amount of personal property assessed in the Third Ward, is 12,901
Real Estate, 115,768
127,669

The total amount of property assessed in the city is $455,880

FRED. PACKARD, City Clerk.

Last year, the aggregate assessment footed up $155,000, a gain of $320,000 in a single year.—*Editor Crescent.*

What a shocking bad "Assessment Law" that must be which, in every section of our State thus doubles and trebles the amount of property subject to taxation!

A MOTHER THROWS HER FOUR CHILDREN INTO A WELL, AND THEN JUMPS AFTER THEM.—It has already been announced by telegraph that Mrs. Christiana Schilling, of Grove City, a village in Jackson township, about nine miles from Columbus, committed suicide on Wednesday morning last, after killing her four children by throwing them into a well. The following details we gather from the *Columbus Statesman.* On the night previous to the commission of the crime, the husband of Mrs. Schilling went to a wedding party, from which he did not return until after daylight, leaving at home his wife, a healthy and good looking woman of thirty-six and four children, Valentine, a boy ten years of age, and three daughters, Christiana, Caroline and Augusta, aged respectively twelve, five and three years At ten o'clock in the evening, a passer-by heard a mother and children singing a hymn, after which nothing is known until an early hour in the morning, when a neighbor having occasion to use the well, saw the five corpses floating upon the water. No marks of violence were to be seen, except a slight scar on the forehead of the boy. An inquest was immediately held, but no evidence was adduced to show that any one but the mother could have committed the deed. The only assignable cause for the commission of the crime is insanity, it being stated that about a year ago she made an attempt to commit suicide during a fit of madness with which she was then attacked. Those best acquainted with her, say that she was eccentric and superstitious, and often declared that she was bewitched, while her husband's conduct was such as to give good press purpose of considering our common well-grounds for jealousy and discontent.

OUR CANDIDATES FOR ASSEMBLY.—We place at the head of our columns this week the names of Eli G. Rudd, of Reedsburg, and Nelson Wheeler, of Washington, as the regular Republican candidates for Assembly from their respective districts. So well known are these gentlemen that it is almost superfluous for us to set forth their claims upon the unbroken suffrage of the party, and of the people at large; yet a few words will not be out of place.—*Baraboo Republic, Sept.* 28.

The *Republic* proceeds to speak, in terms of warm and well-merited praise, of these two candidates. We trust that the Republicans of Sauk County will see that both are elected by decisive majorities.

ANOTHER COMET!—We observe a large Comet in the north east, visible in all its splendor at 4 o'clock, A. M. It is much larger than the comet in the north-west, visible to the naked eye every clear evening.—*Appleton Crescent, Sept.* 24.

Nevertheless, brother RYAN, it is one and the same comet that you see, North-West in the evening and North-East in the morning. As the present moon wanes, this comet begins to show splendidly in the Western evening sky.

LA CROSSE & MILWAUKEE, AND MILWAUKEE & HORICON RAIL ROADS, WILL CARRY PASSENGERS AT HALF FARE TO THE STATE FAIR.—Arrangements have just been perfected with the La Crosse & Milwaukee, & Milwaukee & Horicon Rail Roads, to carry passengers to and from the State Fair, at half fare as per following regulations:

Passengers coming to the Fair will pay full fare, and on application to me, will be furnished with a certificate of Membership which will entitle the bearer to return free over those roads, on the 7th 8th and 9th days of October.

D. J. POWERS,
Sec'y State Agricultural Society.

AN EXCELLENT APPOINTMENT.—The Horicon *Argus*, (Dem.,) thus notices the recent appointment of Judge for that Circuit:

A. Scott Sloan, Mayor of Beaver Dam, has been appointed Circuit Judge, by Gov. Randall, *vice* Charles H. Larrabee resigned. The Governor did well, as Sloan is every way qualified for the important post.

☞ A large breadth of ground has been sown to Winter Wheat in this County. The corn crop is excellent; potatoes very fair. Buckwheat has been slightly touched by frost.—*Appleton Crescent, Sept. 24th.*

Correspondence of the Daily Sentinel.

Grain in Store at Buffalo---Prices in Prospect---Short Cargoes.

BUFFALO, Sept. 23, 1858.

MESSRS. EDITORS:—Below I hand you a correct statement of the amount of grain in store in this city—it falls much short of what was expected:

Wheat bush.,	898,028
Corn bush.,	455,580
Total,	1,353,386

which makes a small amount over one million of bushels.

Milwaukee Wheat will bring from 94c to 1,05. Corn—dull, held above the prices of buyers. It is the general impression that the market will advance, and Corn will sell at 60 and 70 cents. Good qualities of Wheat will bring fair prices. I learn that nearly all the vessels which arrive from lake Michigan fall short in weight of Wheat and Corn. There is some wrong practice here, or the above vessels should not have to pay from $50 to $200 for short grain every trip, particularly at this time, when freights are so ruinous, from 2 to 4cts. per bushel.

I never knew Buffalo so dull as it is now, the New York Central Railroad has been a curse to Buffalo. They are carrying freights at such prices as will not pay; flour at 45c. per barrel, and goods at about $6 to $4 per ton.

Yours, &c., WISCONSIN.

Programme of the Ladies' Equestrian Display at the Wisconsin State Fair for 1858.

The Ladies, with their escorts, will assemble at the City Hall, between the hours of 10 and 11 o'clock A. M., on Friday, the 8th day of October, at which time each lady will receive a number.

At 12 o'clock M., *precisely*, the cavalcade will be formed on Wisconsin avenue, near the City Hall, in the following order:

1st. Band and Colors.
2d. Dane Cavalry.
3d. Governor and Staff.
4th. General Officers, with their Staffs.
5th. Board of Judges.
6th. Ladies and Gentlemen.

The cavalcade will then proceed, under the direction of the superintendents, for the Fair grounds, and will not be allowed to move faster than on a walk. On arriving at the ground, the cavalcade will pass once or twice around the course, when it will come to a halt and form a line. Ladies desiring to enter the list for prizes, will then hand in their numbers to the Judges, and proceed at once to compete for the awards.

After the trial is concluded the cavalcade will be reformed in the same order, and return to their rendezvous.

Dr. E. B. WOLCOTT, Milwaukee,
Col. G. F. HASTINGS, Juneau,
General Superintendents.

The foregoing is the programme adopted by the General Superintendents of the Ladies' Equestrian Display at the State Fair.

It will be seen that is intended to be a fine affair in its way, and is intended to awaken and promote a more general habit and fashion of horseback riding among both Ladies and Gentlemen.

The Superintendents are gentlemen well acquainted with all the minutæ of horsemanship of the most approved style, and of that high character, that guarantees in the fullest manner, that everything will be just what it should be; a brilliant display and instructive lesson to all parties.

The City Hall has been securred for a general rendezvous and dressing room for the ladies, and will afford every desirable facility for that purpose. Lady attendants will be in waiting to take charge of apparel and articles, and to render all needed assistance.

The military of the encampment, will on the arrival of the cavalcade at the Fair Grounds, tender to them a grand salute and reception.

A grand banquet will be served in the evening of the same day to those composing the cavalcade, free of charge, at the City Hall, with the usual accompaniments of speeches, toasts, sentiments, music, &c.

All persons comprising the cavalcade will be admitted to the Fair Grounds free of charge during the Fair.

Parties wishing further information can obtain it by application to this office.

Captain De Riviere and the Chicago Press.

To the Editors of the N. Y. Express:

GENTLEMEN:—In answer to the article from the Chicago Press, I have only to say that the Boston, "gentleman" who gave the information has uttered a deliberate falsehood, which he took great care not to sign with his name. I would also suggest that the Chicago Press, before publishing such ridiculous untruths, ought to inquire from reliable persons as to the facts. I have never in my life been either in Boston, Roxbury, Chile, or Valparaiso, and do not know a soul at Chicago. I intend to visit this last city in a short time, and I will do myself the pleasure of calling on the editors, so as to enable them to verify the erroneous statements given by them about me. Very respectfully yours,

Capt. H. A. DE RIVIERE.

THE BLUE ISLAND TRAGEDY RE-ENACTED.—ANOTHER MURDER.—On Thursday last, a German, whose name we have not learned, came in from the town of Jefferson with a load of market articles. Having disposed of it, and received about eighteen dollars therefor, he set out on his return home by the Northwestern Plank Road.—He was found yesterday morning, a few miles from the city, with terrible wounds upon his head, apparently inflicted with an axe, or some heavy instrument.

He was taken home, and medical aid summoned, but such was his hopeless condition that ere this he is undoubtedly dead. His money was gone, showing that the price for this last murder was eighteen dollars. It is rumored that two men were seen riding with him on Thursday evening, and if this be the case, one or both of them, undoubtedly committed the deed. It is possible, that we may have further particulars before the issue of our second edition.—*Chicago Journal, Saturday evening.*

THE LA CROSSE ROAD AND THE LAND GRANT.—The N. Y. *Express* of Thursday morning, Sept. 23d, contains the following item of news:

The La Crosse Railroad, it is understood, will resort to the courts to procure a transfer of the lands granted by Congress. The present Governor is not averse to this course, and will offer no impediment which competent legal authority will overrule. The amount of collectable debts standing against the road, is now reduced to $400,000, and the Managers say, cannot be increased above this sum.

A DISPATCH IN REGARD TO THE MISSING STEAMER.—The steamer Austria, of the New York and Hamburgh Line, is now some eight or ten days over due. As it is known that there are seventeen persons on board who are bound for Cincinnati, their friends here are of course exceedingly anxious and much alarmed for the safety of the steamer. Yesterday afternoon's dispatch announcing that a burning steamer had been seen by another vessel, very naturally increased this alarm. Later in the day, however, we were shown a dispatch from C. B. Richard of New York, the General Agent of the Line, in which he says: "Austria not arrived. No danger apprehended. She stands probably under sail."—*Cincinnati Gazette Sept.* 24.

SAD ACCIDENT TO A SUCCESSFUL SAILOR.—We regret to learn that Capt. Thos. W. Taylor, of the brig Black Hawk, just returning from Liverpool with a load of pig iron, when about entering the outlet lock of the Welland Canal at Port Colborne, Wednesday evening, met with a severe accident. A seaman named Marcellus Rollins got one of his legs entangled in the hawser used in bringing the vessel up, and had it severed from the body below the knee. Capt. Taylor seeing his danger, like a true sailor, rushed to his relief, and becoming also entangled lost one of his legs in the same way. Both sufferers were taken to Buffalo in a tug, where their legs were amputated below the knee. This is a sad termination to a successful voyage by one of the best Captains on our Lakes.—*Detroit Tribune Sept.* 24.

☞ M. Friedlander, a well known bookseller of Berlin, has, after ten years careful experiment, succeeded in discovering a method for the reprinting of old books and manuscripts. The print of the original is, in the course of the process, transferred to a stone, from which the copies are multiplied after the manner of lithography. The great point of the discovery, however, is that the original by this multiplication is neither destroyed nor even injured.

Steamboats.

FOR GRAND HAVEN.—The steamers *Arctic* and *Cleveland* leave Johnson & Olmsted's dock every afternoon & evening, (Sunday excepted,) at 12½ and 5 o'clock, for Grand Haven, connecting with the Detroit & Milwaukee Railway for the East.

FOR CHICAGO.—Steamer *Traveller* leaves every evening, (excepting Saturday,) from Johnson & Olmsted's Dock, at 9 o'clock.

FOR TWO RIVERS.—The steamer *Forester* leaves every morning, (excepting Sunday,) at 6½ o'clock, from same place, for Two Rivers, stopping at Port Washington, Sheboygan and Manitowoc.

Propellers.

FOR BUFFALO.—A line of propellers run to and from Buffalo, one of which leaves this city daily.

FOR ODDESSA PORT.—A tri-weekly line of propellers also run to Ogdensburgh.

GRIFFIN & BRADLEY, at the foot of East Water street, are the Ticket Agents for both of these propeller lines.

FOR CHARLESTOWN.—A tri-weekly line of propellers run to Cedarwood, stopping at intermediate ports, and leaving this city on Sunday, Wednesday and Friday of each week. L. D. JEROME, Agent.

Shipments from Milwaukee.

It will be seen by our Commercial Review that the shipments of wheat for the week ending Saturday, are one hundred and eighty-three thousand five hundred and forty-eight bushels, including flour, and for the season thus far four millions sixty-seven thousand three hundred bushels. By comparison with the shipments to the corresponding period last year, we have the following statement:

Year.	Wheat.	Flour.
1857,	1,617,422	137,310
1858,	2,978,895	215,781
	1,360,973	78,971

Which shows an aggregate increase in favor of this season of 1,760,828 bushels of wheat, or nearly double the shipments of last year. If we add to the total of wheat, the amount of other grain shipped for the same period, it will be seen that the whole amount of grain shipped thus far this season from Milwaukee is nearly *five million bushels.*

Receipts of Grain Saturday---Largest of the Season.

The Rail Road receipts of Flour, Wheat, Barley, &c., on Saturday, were the *largest* we have ever had on any one day in this city. The totals were:

Flour,	937 barrels.
Wheat,	53,889 bushels.
Barley,	1,188 "
Corn,	565 "
Oats,	553 "
Rye,	152 "

Reducing the Flour to Wheat, the aggregate receipts of Grain for the day amounted to *sixty thousand five hundred and fifty bushels.* The sales were correspondingly large and at remunerative prices. Again we say to the Farmers "Make hay while the sun shines!" Send in your surplus grain to market!

The Debates of Congress.

Benton's Abridgement, Vol. 8. We are indebted to Messrs. S. C. GRIGGS & Co., enterprising Booksellers and Publishers in Chicago, for an early copy of the eighth volume of Col. BENTON'S abridged Debates of Congress. This volume includes the period from 1824 to 1826, and embraces the important debates on the famous Diplomatic Congress at Panama, as well as upon the Public Lands, the Judiciary System, the suppression of Piracy, the occupation of the Oregon and Columbia Rivers, and other important topics of the day, which are invested with fresh interest by recent events in our political history. The speech delivered by Col. BENTON himself in the debate on the Panama question, is the ablest he ever made, and was excelled by none that the discussion elicited.

We cannot better impress upon the minds of our readers the value and importance of these volumes to all who wish to be thoroughly posted upon the legislation and political history of our country than by copying the following extracts from the prospectus:

Every American should have a fair acquaintance with the political history of his country. This can in no way be acquired so completely as from the Congressional Debates. Men from all parts of the land are here met together, for the express purpose of considering our common well-being. Every shade of political opinion is represented, every principle of political economy discussed, every fallacy of theorists laid open to discussion. No question on national subjects is ever presented to the public, without first having a thorough and exhausting examination here.—The importance, then, of producing these Debates in a popular and convenient form, can hardly be over-estimated. The series published by order of Congress is most cumbersome and expensive, quite beyond the reach of citizens.—The present publication satisfactorily supplies the needs while called in forth.

The most solid merit of these volumes is, that they give to the Statesman, the Lawyer, the Politician, and the Scholar, a clear and intelligent view of the political progress of our country.—They contain the cream of Debates which have been accruing for nearly seventy years, and which fill more than 100 volumes, not purchasable for less than $600. The work is therefore a national enterprise, deserving the encouragement and claiming the respect of every intelligent American. It is endorsed by all the distinguished men of the country, of whatever party, and is universally regarded as the greatest political text book of the age.

No book has ever been published in which the writer or compiler has so completely ignored himself and his prejudices; and no historian was ever more impartial than Mr. Benton has been, even in his notes. We could adduce several instances of this, but it is the rule of the work, without any exception; and the seven volumes which have thus far been published might be histories of antediluvian events, so far as any indications of the author's personal likes and dislikes are manifested. The history of our country from 1786 to 1856, is better written and preserved in this Abridgment of the Debates than in any other form.

The Abridgment of the Debates will be completed in 15 volumes, 720 pages each, comprising what is now contained in over one hundred volumes.

A most complete, accurate, and convenient Index is appended to each volume.

The remaining volumes will be issued at intervals of from two to three months. The price of each is $3 in cloth binding, or $3,50 in law sheep; $4 in half morocco; $4,50 in half calf extra.

Subscriptions received by the publishers, J. C. GRIGGS & Co., Chicago, General and Local Agents for the above, and all Subscription Works published by D. Appleton & Co.

Subscriptions for this great national work are also received by Mr. R. B GIBSON, Agent for Wisconsin, who will attend to all orders addressed to him through the Post Office in this city.

M. & M. R. R. CHANGE OF TIME.—By reference to the Traveler's Directory, it will be seen that there is a slight change in the Time table of the Milwaukee & Mississippi R. R. The Passenger trains leave as follows:

Morning Express,	11:30 A. M.
Janesville Accommodation,	5:20 P. M.
Night Express,	10:30 P. M.
Trains are as follows:	
Night Express,	4:35 A. M.
Janesville Accommodation,	8:50 A. M.
Day Express,	7:50 P. M.

MILWAUKEE, WATERTOWN & BARABOO VALLEY R. R.—CHANGE OF TIME.—On and after this day, Sept. 27th, the trains on the Milwaukee, Watertown and Baraboo Valley Railroad, will leave Milwaukee, daily, at 3 o'clock P. M., and arrive here at 12:30 P. M. Travellers will please take notice.

SECOND WARD HIGH SCHOOL.—At a special meeting of the Board of School Commissioners, held on Saturday evening, Professor A. KURSTEINER, late of the State University, Madison, was appointed Instructor in Ancient and Modern Languages, in the Second Ward High School.—Professor KURSTEINER is a gentleman of fine talents and accomplishments, and will prove a valuable addition to the Educational Staff of the Second Ward High School, as well as a welcome accession to our Milwaukee Society. We do not doubt that he will abundantly justify the fitness of his appointment.

GREAT BOAT RACE.—A great four-oared boat race will come off at Detroit, on Wednesday, 6th of October. The boats will be manned respectively by crews belonging to the Metropolitan Boat Club, Chicago, and the Shaksperian Rowing Club, Toronto. The distance to be run is five miles. The prize is five hundred dollars, and the winning boat will also claim the champion flag of the lakes. The boats will start from a buoy moored in the Detroit river, and the race will commence at ten o'clock in the forenoon, if the day is favorable. The race is creating a great deal of excitement both in this city and in the Western States. A large number of our citizens who are partial to aquatics, have signified their intention of being present. The articles of agreement have been signed, and the forfeit money deposited. From the standing of the parties concerned there is every probability that this will be one of the best contested matches which has ever taken place in the Western waters.—*Toronto Globe.*

No doubt some of our Club men will go to Detroit to see this race, and make up their minds whether the winners shall be allowed to carry the "champion flag of the lakes" without another pull for it.

WALKER HOUSE—OSTRANDER RESIGNED.—We regret to learn that Ostrander, the gentlemanly clerk at the Walker House, Milwaukee, has left that institution. "Our boys" will miss him, and the house will miss him more; he has a host of friends who will stop where he stops, and go where he goes; and fortunate will be the hotel that engages him. In fact, *everybody* liked Ostrander; of *course* they did. He has long been the main stay of the Walker, and his absence will be seriously felt. But wherever he goes, may success attend him.—*Horicon Argus.*

OSTRANDER has gone to the Hyatt House, Janesville, where he will assist the genial landlord, Gen. MCMANMAN, in making everybody feel "at home" there.

NURSERY OF PARSONS & CO.—During a recent visit to this celebrated nursery at Flushing, Long Island, we observed many objects of interest. It is well known as one of the best in this country. It occupies about 100 acres of land.—A larger portion than in most nurseries is devoted to ornamental trees, evergreens, &c. There is a propagating house 100 feet long, and several thousand feet of cold frames and pits, belonging to the hardy department; in addition to which there is a grapery 120 feet long; a house 40 feet long and 10 wide, for stove plants and orchids; one for rhododendrons, azaleas and camellias, 100 feet long, and another for camellias exclusively, the same length; one for ericas, epacris, borronias, aphelexis, and New Holland plants, 100 feet long; another of the same length for geraniums, rose and cuscoi-rias; one of 50 feet for azaleas, daphnes and green-house plants; and one of 40 feet for bulbs. Connected with this department there is a 100 feet propagating house, and about 400 running feet of brick and stone cold pits. These structures and the open ground contain perhaps the largest collection of Rhododendrons, Silvertias, Andromeda arborea, &c., in this country. The cultivation of rare plants, and those of difficult propogation, distinguishes this establishment; and we observed that the grafting of evergreens was conducted with great success. We observed in flower the "Lilium giganteum," a new plant from the Himayla yan mountains—so far as we are aware, the first that has bloomed in this country.—*The Country Gentleman.*

THANKS.—The proprietors of the Revere Hotel request us to thank Mr. Merrill, of the Prairie du Chien *Courier*, for the fine lot of woodcock which he sent them, recently, and as we helped to consume them, we join with our worthy hosts in thanking Mr. M. for the treat.—*Chicago Herald, Sept.* 25.

Come, friend MERRILL, can't you do as much for your old associates in the *Sentinel* office.

OUR FOR EUROPE.—Our fellow-citizen and good Republican friend, Mr. WM. MELMS, brother of Mr. C. T. MELMS, of the Menomonee Brewery, leaves here to-day, on a six months' visit to his native land. A host of friends wish him a pleasant journey and a safe return.

DR. KNAPP'S LECTURES.—The card of Dr. KNAPP will be found in our advertising columns this morning. He continues to lecture occasionally, at Young's Hall, and succeeds in interesting those who go to hear him.

A GRAND Concert is to come off next Friday, by Mr. WEINBERG, one of the greatest violinist in the Western country and one of our citizens. Every citizen should feel proud and make it his business to attend the Concert. See programme in this morning's paper.

"The experience of the profession at large, appears now quite to have established the fact that Cod Liver Oil is one of the most efficacious of all remedies in arresting the progress of pulmonary phthisis—that it enables patients to struggle on longer against the inroads of disease and thus enables them sometimes to obtain cicatrization and contraction of cavities which otherwise must have produced speedy death."

Trial of Capt. Townsend.

BOSTON, Sept. 25.

The case of Townsend, the alleged Captain of the slave brig Echo, was called up again to-day before Commissioner Loring, a hundred and five witnesses were examined:—Lieut. Maffit, Commander, Lieut. E. Bradford, Lieut. Chase, carpenter, Dr. J. L. Brown, surgeon, Leonard G. Grinnell, Captain's Clerk, Edward G. Williams, 2d Lieut., and Alexander F. Crassen, sailor.—All of the Dolphin.

The testimony was mainly a description of the *Echo* on the coast of Cuba, which has already been published. Lieut. Bradford, who first boarded the slaver, could not identify Townsend as the Capt., it being dark at the time. The morning after he claimed to be simply a passenger, which character he has since continued to assume. The further hearing was then postponed until Tuesday. The question of jurisdiction is the main one involved in the present examination.

No doubt is entertained that the burnt steamer was the Austria. She had eight of Francis' metallic life boats, each of which would hold fifty persons, and three or four ship launches.—Several steamers were doubtless in the vicinity at the time of the disaster, and the probability is that all the lives, numbering 540 passengers and crew, were saved.

Capt. Shaw, of the bark *Arabian*, which arrived this morning, reports that at 7 o'clock on the morning of the 15th inst., he fell in with an iron screw steamer on fire, apparently of 1,200 tons. She had a gilt crown eagle head, and a straight stern-head—raked well forward, and her bottom had red paint on. Her upper works were destroyed, and the wood work above and below was all consumed. Her masts were gone, and her sides were falling. The funnel was laying on the starboard side, but its color could not be told. The *Arabian* pushed round the stern of the steamer, but no name was distingu

Republican State Convention.

A REPUBLICAN STATE CONVENTION will be held at the Assembly Hall in the city of Madison, on Tuesday the 5th day of October next, at 2 o'clock P. M.

The objects of the Convention are to confer generally upon the interests and welfare of the party; and take all needful measures to insure its harmonious and vigorous action, and the perfection of its State and local organization, and also such other matters as may properly come before it.

It is recommended that each Assembly District send two delegates; and it is hoped that good and true Republicans from all parts of the State will attend and aid the Convention by their presence and counsel.

The State Fair.

We invite the *special* attention of all Exhibitors to the letter in this morning's *Sentinel* from the Secretary of our State Agricultural Society. It will be seen that the rules as to entries will be rigidly enforced this year, and that all articles, stock, &c., intended for competition, must be entered by Tuesday evening, Oct. 5th. After the office is closed on that evening, no more entries will be received. The Secretary suggests, as a means of saving time and trouble, that entries be made by letter, addressed to him at Madison, before the Fair commences.

From all that we can learn, the Fair promises to be altogether the largest and most attractive we have yet had in our State. The people of Madison have been at great pains and expense to fit up beautiful grounds for the purpose, and will throw open their houses for the accommodation of the thousands of visitors who will flock to our State Capital during Fair week.

Besides the ordinary attractions of an Agricultural Fair and the Horticultural Society's exhibition, the programme for the week includes a Military Encampment, a Firemen's Tournament, a Ladies Equestrian Display and Riding Match and a Regatta on Third, or Fourth Lake. The presence, too, of Professor RAREY, the celebrated Horse Trainer, is positively secured, and it is announced that he will give lessons and exhibitions in taming and training horses three times a day, during Fair week, commencing at two P. M. on Tuesday. There is no *humbug* about this matter. Professor RAREY is a genius in his way and has a marvellous faculty in subduing and controlling vicious animals. He invites farmers who have *perfectly unmanageable* horses to bring them to the State Fair, and he guarantees a perfect cure. Of course, Professor RAREY does not want to waste his time upon mere balky, or slightly mischievous horses. He wants to try his hand and prove his skill upon *outrageously vicious beasts*, that have hitherto spurned all control and refused to obey any master. These are the subjects that Professor RAREY delights to take in hand and bring to terms.

We might hint to the ladies that those who have heard Prof. RAREY's lectures, *do* say that his system is just as valuable *for* the "training" of children and the "taming" of men, as it is for four-footed brutes. Of course, we do not suppose that a true woman needs to be told how to manage a man; but, nevertheless, Prof. RAREY may be able to tell even them something new on the subject of education and government.

During Fair week all the Railroads will run extra trains at reduced rates of fare, for the accommodation of exhibitors and visitors. We presume that these arrangements will shortly be Published.

Our editorial brethren, who have been most liberally cared for by the State Agricultural Society, by the various Rail Road and Steamboat Companies, and by the Madison craft, will find an additional incentive to visit the Fair in the Editors' and Publisher's Convention, which is to be held there during the week. And our Republican friends will also rejoice, no doubt, to improve the opportunity offered by the Republican State Convention, to be held at Madison on the 5th of October, to compare notes, renew friendships, and consult together for the advancement of the good cause. Upon the whole, we conclude that pretty much everybody will be at Madison during the Fair week, and that it will be well worth any man's while to travel hundreds of miles to see the sight.

Another "Democratic" Test.

The Green Bay *Advocate*, which last week urged Judge LARRABEE's skill in making chowder and cooking brook trout, as among his prominent qualifications for Congress, thus hints at a new test of party fealty, which is about to be introduced in this State:

WHAT IS THE BEST CROP?—The wheat crop having failed largely in this State, a discussion is going as to what grain our farmers had best attempt to raise next year. The editor of the Wisconsin *Pinery* thinks that *Rye* promises best. Does the fact that the President is partial to rye have any weight in leading our friend the General to this sage conclusion?

There is more in this than meets the eye. We have good reason to believe that a deliberate attempt is to be made, in this State, to substitute *Rye* for *Wheat* or *Barley*, as a favorite "Administrative measure"

No longer ago than last week an ambitious aspirant for diplomatic appointment, who was duly initiated into the Eranic Order in this city, being asked under oath what was his "particular tap," and being reminded of the possibly momentous consequences to himself of an erroneous choice, expressed his enthusiastic admiration of "Old Rye," and pledged his influence towards disseminating this Democratic seed and rooting out these Republican grains, Wheat and Barley. The whole lodge applauded this patriotic sentiment and immediately on adjourning proceeded to HARRY BINGHAM's Light Guard Saloon and proved their faith by their works. We have no doubt, therefore, that the Stevens Point *Pinery*, a well-known Administration organ, is only following its cue in thus declaring for "Rye." Devotion to "Rye" is henceforth as indispensible a test of genuine Democracy, as approval of the DRED SCOTT decision, or acquiescence in the ENGLISH swindle.

MONROE COUNTY TICKET.—The following County Ticket has been agreed upon by the Republicans of Monroe County. The Sparta *Herald* endorses it as an excellent one:

For Clerk of the Board—A. F. Childs.
For Clerk of the Court—C. Carrison.
For District Attorney—N. Leonard.
For Sheriff—C. W. McMillan.
For Treasurer—A. Kendall.
For Register of Deeds—L. S. Fisher.
For Surveyor—A. S. Ingille.
For Coroner—O. P. McClure.

A PRIZE FOR THE BEST CROP OF WHEAT.—The Madison *Journal* says that Mrs. J. H. MANNY offers as a premium to the person raising the best crop of wheat in Wisconsin, in the year 1859, one of Manny's best reapers, to be awarded by the State Agricultural Society.

The reaper will be exhibited on the State Fair Ground at the approaching State Fair.

A $5,000 Chairman for the Republican County Convention.

WM. M. COLLADAY was chairman of the republican County Convention, yesterday. He was a member of the Legislature of 1856, and voted for the swindling Land Grab. The investigating report of last winter has his name among the recipients of corruption bonds, to the amount of $5,000, and preceding the list in which his name occurs are the following remarks by the Investigating Committee:

"The members of the Assembly to whom stock or bonds were assigned, as was done to the Senators, are named in the following list, with the amounts to each set opposite. *Of this list of names it does not appear that any one refused to accept the amount assigned and put up for him.*"

This in regard to the Chairman of the republican convention is matter of public record, sworn to by witnesses, has been published before the people of the State, and yet in spite of it, he was elected to that office.

Hurrah for the ticket thus nominated.—*Madison Argus*, (*dem.*)

The one-eyed *Argus* which is so prompt to discover this "mote" in the Republican eye, is blind to the "beam" in its own. Mr. COLLADAY, whom the *Argus* thus singles out for assault, denies over his own signature having ever received a dollar of bonds from the La Crosse Rail Road Company. He voted, to be sure, for what the *Argus* now calls the "Swindling Land Grant," but which, when it was pending in the Legislature, this same *Argus* earnestly advocated and warmly eulogized.

As an additional evidence of the *Argus'* consistency and a fair illustration of the sincerity of its clamor against Mr. COLLADAY, it is sufficient to point to the fact that though horrified at the idea of "a $5,000 man" being in a Republican Convention, the *Argus* entirely approved of the $75,000 men who were in the Democratic Congressional Convention at Prairie du Chien, and of the $355,000 men who dictated the nomination of BERIAH BROWN in this district, and stoutly defends Mr. BROWN, the candidate thus nominated, for taking $62,000 "in bonds" from the La Crosse Company, as his share of the "Swindling Land Grab!" All these "fat takes," according to the *Argus*, were so many "fair business transactions." They only become "corrupt" when Republicans are interested. We doubt whether the People appreciate this Democratic disinction.

The Price of an Administration Organ.

The *News* apologizes for its unlucky publication of that letter from the N. Y. *Herald*, accusing President PIERCE of having sold a foreign mission to ARCHBISHOP BEDINI, and intimating that President BUCHANAN was about to repeat the experiment, by saying that the *Herald* "is a warm and bold supporter of the Administration," and that it "did not endorse the statements of the *Herald's* correspondent." The mere publication of such a letter in a party paper like the *News*, without dissent or protest, is regarded by the faithful as an endorsement.—The *Herald*, moreover, belongs to that wayward and treacherous tribe of so-called "independent" papers, which are never of the same mind two months in succession, and are no more reliable than the wind.

The *News*, referring to the want of an Administration organ in Wisconsin, proceeds to say:

In regard to the question of an organ, we learn that an agent recently left here for Washington, authorized to offer the *Sentinel* to the administration on certain conditions, involving a change of post master and some other little *et ceteras*. We will endeavor to keep the public posted in regard to the progress of the negotiation.

We hope the *News* will tell all it knows about this "negotiation." As to the price named the *News* no doubt speaks from its own experience. It sold out to the Administration for a post-mastership, and when the office was lost, immediately deserted from the Buchanan to the Douglas side. It is quite ready, however, to desert back again on the conditions of "a change of postmaster and some other little *et ceteras*." We doubt whether the Administration will be willing to pay so dear for such a whistle.

The War upon Douglas.

The Green Bay *Advocate*, which has no special love for the BUCHANAN Administration, thus frees its mind upon the subject of the war which the Federal office-holders in Illinois, under orders from Washington, are waging against that Democratic Rebel, Senator DOUGLAS:

Of all the cold-blooded, selfish, damnable warfare ever carried on against any man, this one which is waged against Senator DOUGLAS takes the lead. So far as he has had to deal with the regular Republican opposition, we do not know that he has anything to complain of; but there seems to be a gang of so-called democrats in that State who are using their strength with the enemy in defeating one of the most talented, popular, gallant, deserving Democrats in the North-West.

These "so-called Democrats" are the "Simon Pures" of the party. The Washington *Union*, the great oracle of National Democracy, endorses them as "regular" and ostracises DOUGLAS and his adherents as "Traitors and Disorganizers." As the *Advocate* sympathizes with Senator DOUGLAS, it very naturally takes his part; but such Administration organs as the Wisconsin *Pinery*, Waukesha County *Democrat*, &c., quite approve of the Administration effort to put down the Illinois insurrection and punish its dangerous leader.

IOWA COUNTY POLITICS.—The Republican candidates for county officers, in Iowa Co., are: For Sheriff, W. E. Rowe, of Arena; for Clerk of the Court, Mark Corlin, of Highland; Clerk of the Board, John H. Weston, of Linden; Register, Geo. Messersmith, of Dodgeville; Treasurer, Francis Vivian, of Mineral Point; District Attorney, Parley Eaton, of Mineral Point; Survevor, A. W. Cumins, of Linden; Coroner, Matthew Goldsworthy, of Mineral Point.

JOHN TOAY of Mineral Point, is the Republican candidate for Assemblyman in the South, and SAMUEL W. REESE, of Dodgeville, in the North District.

The *Tribune* says of the candidates:

They are known and well known, as honest, capable and trustworthy. Such of them as have been tried—and most of them have held offices of trust and responsibility—have been found faithful and true in the discharge of the duties imposed upon them, and if elected to the offices for which they are candidates, the citizens of Iowa county will have no reason to regret their choice.

DANE COUNTY REPUBLICAN NOMINATIONS.—The Republicans of Dane County have put in nomination the following strong ticket:

Sheriff—Willet S. Main, of Madison.
Treasurer—A. A. Boyce, of Vienna.
Register—Chas. Cornelisson, of Madison.
District Attorney—Elisha W. Keyes, of Madison.
Clerk Circuit Court—Myron T. Bailey, of Madison.
Clerk of the Board—J. Murry, of Madison.
Surveyor—H. M. Warner, of Black Earth.
Coroner—Newman Rowley, of Verona.

CHARGES TO BE INVESTIGATED.—Mr. J. O. HENNING, one of the U. S. Land Officers in this State, thus writes to the Hudson *Star*, in relation to certain charges of official misconduct which have been made against him:

HUDSON, Wis., Sept. 20th, 1858.

MESSRS. CLEWELL & ELWELL:

A Washington correspondent of the N. Y. *Times*, in a very bitter and vindictive manner, assails my character as a public officer, while acting as Register of the United States Land Office at this place—which article is copied into the Hudson *Chronicle* of last week. An official investigation of the charges preferred against me, will be held at this place, commencing on Saturday next, at which time I hold myself ready to refute any and every charge of official misconduct, which has been or may be alleged against me. Respectfully yours, &c.,

J. O. HENNING.

MOUNT ASCUTNEY.—A correspondent at Windsor, Vt., writes:

"During the season, the citizens of Windsor have cleared and made a decent road to the top of 'Ascutney,' and built a tolerable house for the accommodation of visitors to that famed mountain, near its summit. This was dedicated a couple of weeks ago with appropriate exercises, music, &c., and is now open to a 'generous public.'"

Correspondence of the Sentinel.

Entries for Exhibition at the State Fair.

Messrs. Editors:—Allow me through your widely circulating columns to call the attention of parties intending to exhibit at the State Fair, to the importance and absolute necessity of making their entries in due and proper season, and for that purpose I will quote from the rules and regulations of the Society, in relation to entries:

EXHIBITORS.

"All who intend exhibiting and competing for Premiums will confer a great favor on the Society by forwarding their entries by mail to the Secretary, (D. J. Powers) at Madison, at least two weeks before the Fair, accompanied by the proper entry fee, $1, (all the better if a month before) This will enable the Secretary to have the entries made seasonably and without confusion and all the requisite tickets ready in a letter envelope, for delivering on demand, when the party arrives and calls for them.

The entry office will be absolutely closed on Tuesday evening, *and no entries for competition will afterwards be received in any event whatever*, except for the Plowing Match, Equestrian Display and Trotting Match, any of which entries can be made at the Secretary's office, up to 10 A. M. of each day on which their respective trials take place.

The forgoing entry rules will be strictly adhered to this year, and from the absolute necessity of this case, as all experience has shown that delays in entry, invariably and inevitably produce delays and derangements in every subsequent operation, and among other evils, wholly prevents the *announcement and payment of premiums at the Fair.*

It is a fixed determination on the part of the Executive Committee, in all cases hereafter, to thus announce and pay the premiums, according to programme; and to enable them to do this *they will absolutely* and without *fail*, close their entry office on Tuesday evening, as before stated, and those who send or come too late, and fail to make their entries, will have none to blame but themselves.

We would reassure all those interested, that strict compliance with the foregoing rules, will this year be enforced. Hence, all must be on hand, to get their entries on or before the said Tuesday evening, the 5th of October, and it is better for them to forward by mail, than to wait until the last day, when so many that are behind, find themselves at last in a hurry and in a crowd.

We are already receiving hosts of entries by mail; but from questions occasionally asked us by letter, we perceive that many are not aware of the plan of closing on Tuesday evening, and unless apprised through *the Press of the State*, will come in too late, and to the disappointment of all parties. A desire to do everything we can, to aid to avoid such a difficulty, prompts us to this new effort at teaching the unpostable and careless.

☞ Editors of the State who will copy this notice, will confer an especial favor, both upon exhibitors and the State Agricultural Society.

Yours very truly,
D. J. POWERS,
Sec. W. S. A. S.

State Agricultural Rooms, Madison, Sept. 25, 1858.

CAN RAILROADS OBSTRUCT THE HIGHWAYS?—This question has just been decided in the negative by the Supreme Court of Pennsylvania.—In the case of PATRICK KELLEY vs. the Pennsylvania Railroad Company, it was lately decided that the Railway Company was liable for damages arising from the obstruction of a public highway at a "crossing" by their locomotives, cars, etc. In this instance, the plaintiff had sent his son, a boy nine years of age, to town for tobacco. On reaching the turnpike he attempted to creep under the defendents' cars, which had just arrived and were standing across it. The train started, and his leg was caught in the wheel and so injured as to render amputation necessary.—The jury found, by their verdict, that the defendants were obstructing the crossing, and gave for plaintiff $3000 damages.

LAUNCH OF A RUSSIAN STEAM FRIGATE.—The Russian steam frigate General Admiral was successfully launched from the yard of Wm. H. Webb, New York city, Tuesday morning, in presence of an immense audience. Dodsworth's Band was stationed on board, and upwards of three thousand persons filled her decks when she glided into the water. The moment she moved from the stocks, Madame Sheetskoff performed the ceremony of christening her by breaking a bottle of wine over her bows. The frigate was decorated with the Russian jack at the fore, next the American ensign, amidships the Russian national flag, and at the stern the Russian naval flag.

She is expected to be ready for sea on or about the 1st of May next. Her pivot guns will be of the Dahlgreen pattern, and will be furnished in Russia. Her gun carriages are of mahogany, and every part of the vessel will be fitted up in a superb manner. She is expected to cost one million and a quarter dollars ($1,250,000)

LATEST FROM PIKE'S PEAK.—The Lawrence (KANSAS) *Republican* of the 16th says:

"As we go to press, we learn that Mr. Archbald has just received a letter from his son, who was one of the Lawrence company that went out last spring. He reports that the Lawrence boys have left Pike's Peak, and gone to Cherry Creek, where they are now making from five to eight dollars per day in digging gold. The higher they go up the stream, the coarser they find the gold, and more of it. They are so well pleased with their success that they have determined to winter in the mines. This news is the most satisfactory and reliable of any that we have yet heard."

REMOVED.—Gov. Randall has removed E. B. Quiner, appointed some time since as one of the appraisers of the Saline Lands, and appointed J. E Vinton, of Green Co., in his stead.—*Madison Journal.*

The above notice of *removal* strikes us as rather cool, considering that Mr. Quiner declined the appointment some time since.—*Wisconsin.*

Mr. Quiner did not decline the office to the Governor. He only wrote a letter which was published in the *Wisconsin*. The Governor *removed* him—that is how Quiner got out of office.—*Madison Argus*, (*Dem.*)

The popular verdict in this case, is "served him right."

CATARACT MILLS.—Our enterprising neighbors, Messrs. Goldthrite & Horeman, at Little Falls, about 10 miles north on the Black River road, have got their Flouring Mills in complete order, and are producing the first class of flour. We received a sack of it last week, and have not seen a better quality of flour since we have been in the State. And doubt whether there is any better manufactured at any other Mill in it. We suggest to our friends the propriety of sending a barrel to the State Fair at Madison, as a specimen of what the La Crosse Valley can do in the wheat and flour line. We understand the above firm are buying wheat and paying the highest market price.—*Sparta Herald, Sept. 24.*

THE CHANCES OF DIGGING FOR GOLD IN WINTER.—According to Mr. Yale, chief-trader at Fort Langley, Frazer River is frozen tight enough for skating upon it from the latter part of December till the last of March. The water falls in September, and does not rise again till May, and then keeps high till September again. If this statement be true, whatever gold there may be in Frazer River, is likely to remain there, for the working season, under the most favorable circumstances, cannot be over or three months in the year.

Plowing Match at the Coming State Fair.

Promises to be a much more interesting feature than in former years.

Wm. F. Porter, Esq., a first-class Massachusetts farmer, is chairman of the committee of Judges, and is having all the arrangements made in season for a tip top and thorough trial. Ten acres of land has been cleared of every obstruction and surveyed in readiness to start 40 plows on it at the word go.

One lad nine years old has entered in the Juvenile List; who among the smart plow boys of Wisconsin can beat him? The prospect is that there will be thirty to forty competitors all in all, in the field, and a stirring time of it in the soil. So may it prove, the more the merrier.

The following is the list of Judges, premiums offered, regulations, &c.

No. 28.—PLOWING MATCH.

JUDGES—Wm. F. Porter, Ca'n, Madison; John A. Fletcher, Johnstown; E. M. Danforth, Oconomowoc; O. G. Ewing, Lagrange; M. C. Bartholomew, Lodi.

The Plowing Match will take place on Thursday, October 8th, and continue as long as the Judges shall deem necessary for a full and perfect trial.

The competition for plowing open to competitors out of the State.

The name of plowman must be given, as well as the kind of plow to be used, at the time of entry.

RULES FOR PLOWING.

1. The quantity of ground for each team to be one-fourth of an acre.

2. The time allowed to do the work will be two hours.

3. The width of the furrow to be eleven inches and the depth not less than six inches.

4. The furrow slice in all cases to be lapped.

5. The teams to start at one time, and each plowman to do his work without a driver, or other assistant.

6. The premiums offered by the Society, will be awarded to the individuals who, in the judgment of the committee, shall do their work in the best manner, provided the work is done in the time allowed for its performance.

7. No person except the viewing Committee will be allowed to enter upon the grounds after the work is commenced, until the Committee leave the ground.

8. Each plowman to strike his own land, and plow entirely independent of the adjoining land.

9. Within the fourth of an acre plowed, each plowman will be required to strike two back furrowed lands, and finish with the dead furrow in the middle.—*Madison Journal.*

OUR VILLAGE AS A WHEAT MARKET.—During the past week an unusually large amount of wheat has been brought in and sold readily at fair prices, establishing our former predictions that Sparta would soon become an important wheat market. The crop of this year, though not near so large as last, nor generally yielding as good a quality of grain, owing to general causes, is still very large for a country as newly settled as this is; and gives ample evidence of what our rich fertile valley will be a few years hence, for wheat and other grains when the thousands of acres of Burr Oak openings surrounding us, will be placed under the cultivating hands of the thrifty and skillful class of farmers rapidly coming into the La Crosse valley to purchase farms. The last that the farmers can get the highest price for wheat and other produce, is cash down for all what is now brought in, and the demand daily increasing, is a consideration of no little importance and speaks volumes for the future. A few weeks more and the freight trains will be loaded with wheat, &c., from the La Crosse valley, for the Milwaukee or still further eastern markets, and considerable of it may find its way south, down the Mississippi, as they down-the-river-folks are beginning to find our North-Western wheat of Wisconsin is altogether of a superior quality to that raised on the mucky wet prairies of southern Illinois.

Our position as a wheat market stands unrivalled in the North-West, at the present time, as well for its growth as for facilities for larger markets east and south; being central and surrounded as it is with the best Wheat growing belt of land in the State.

Wheat is now finding a ready market in Sparta at from 60 to 90 cents, according to quality. Yesterday a very fine lot of Blue Stem was brought in and purchased by our shrewd judging miller, K. McClure. It weighed over 62 lbs. per bushel, with a clear plump berry, and will, no doubt, under his skill, produce a superior grade of flour.

We understand there is now in the hands of farmers in this vicinity, a large amount of last year's crop of wheat, of extra qualities. This will no doubt be brought into market during the fall and winter. We shall look for lively times in Sparta during the coming season, in the Wheat selling line, as well as in all other branches of business.—*Sparta Herald, Sept. 24.*

The Republic of Liberia.

Its Position and Prosperity—Slave Trade—Letter to Bishop Potter.

We present a letter addressed to our much esteemed townsman, Bishop Potter, by a colored man who was ordained by him, and who was for some time a missionary in Liberia. It was written, we learn, in answer to a request of Bishop Potter, made in consequence of hearing that American Naval Officers were representing the Republic as hopeless, and were openly advocating the revival of the slave trade as the only hope of Africa!

Mr. Pinkney is now in the service of a society that looks after the fugitive slaves in Canada, and expects ultimately to go to them as missionary. He has been in England more than a year. The testimony of so impartial and well informed an observer of Liberia is important. It will be perceived that he establishes, beyond question, its striking fitness for its destined object, and that it powerfully tends to the annihilation of the slave trade, and to the civilization of Africa.

LONDON, June 30, 1858.

Rt. Rev. and Dear Sir:—Being confident that you are deeply interested in the welfare of my race in general, but especially with reference to the infant republic of Liberia, on account of your position as President of the Pennsylvania State Colonization Society, I therefore feel it a bounden duty I owe to you as my Bishop, who ordained me to the ministry, previous to my being sent out as their missionary, by the American Church, to the West Coast of Africa, and also as the Bishop who has all lawful jurisdiction over me at present, to answer, as well as I can, the questions propounded by you a few days ago, touching certain reports made by officers of the American navy, or other persons, in reference to the affairs of that republic.

I think sir, that you stated that they asserted, that such was the state of affairs there that the revival of the slave trade would be a benefit to them. This I utterly deny, from what I know of the country during four years residence in it, and thereby having better opportunities for knowing and judging about the affairs of it than any officers of the navy, or any other persons who would merely touch there periodically.—Such persons would be apt to form a hasty judgment and perhaps from mere hear-say; for there are, I will confess, many disaffected people in Liberia as well as in America, and in England, or any other part of the world. They are generally those who are not getting on as well as their neighbors, but in most cases I can truly say, it is their own fault—their want of energy, and of industry.

And these are generally of that class of manumitted slaves from the Southern plantations of North America, who have been kept in ignorance and degradation all their lives, and many of them worked down before they were set free, and then sent out in that state, without any preparation or provision for the future but the six months' allowance which the Colonization Society allows them. There are, indeed, a few exceptions to these cases, but they are very few. It is not to be wondered at, that persons who have been kept in bondage for the greater part of their lives, and then sent off to a strange land in ignorance and poverty, and some of them bending under the weight of years, should find it not an easy matter to get along in a new country, where everything is new and strange to them, and they not prepared by intelligence and foresight, to grapple with these difficulties.

And this class of persons are a dead weight upon the community, and especially upon the missionaries, who have constantly to be supplying them, out of their scanty provisions, with the necessaries of life. And it is from this class of immigrants that the opponents of Liberia have formed their judgment. But this is a one-sided view. They have told you nothing about that prosperous class, composed of men like ex-President Roberts and President Benson, and quite a number of respectable merchants and traders, and farmers, and teachers, and ministers of the gospel of every denomination almost—I mean of every *orthodox* denomination, for they have none others there. They have said nothing, I presume, about the success which, by the blessing of God, has attended the preaching of the gospel by these missionaries, to the conversion of numbers of heathens around them to Christianity. Of these things they know nothing, and therefore they cannot speak.

Believe me, sir, it is a libel upon that struggling colony to say that it is retrograding, and that so fast that the revival of the slave trade would be a blessing to it. I have to say on this point, that the detestable slave trade, as it is now carried on in different parts of the West coast of Africa, though not in any part of Liberia, is a blight and a curse, and is its greatest drawback. It prevents the natives from developing the natural resources of the country, and engaging in the legitimate trade which would be productive of great prosperity to the inhabitants thereof. And we have no reason to expect that any great degree of progress in civilization can be made on the West coast of Africa until the abominable slave trade is abolished. And as that is a matter which seems to be exceedingly problematical, the future of Africa is yet quite beclouded.

But, sir, is it not to be lamented that America, which is more guilty in reference to this matter than all the other nations of the earth, on account of what she has inflicted upon the unfortunate African race, and in the view of which, in order to amend her ways in this matter, she voluntarily entered into a compact with Great Britain to keep a squadron on the West coast of Africa, in order to prevent the traffic in slaves, should, in the face of this, allow her flag to be prostituted to this vile purpose, by placing obstacles in the way of that nation which is the only one which is really in earnest about this matter, and is endeavoring to fulfill her engagement to the very letter. For I am able, from four years residence on that coast, to bear willing testimony to the vigilance and activity of the English squadron; of the prizes which they captured—that is the number of slavers which they caught during that period.

* * * * *

And these are the men, and those of like principles, some of whom are to be found, as you well know, even in the North; aye, even in England, too; who will misrepresent Liberia, and say that is a failure, because they would have it so. But it is not so, sir. Give her but a fair trial; and all the assistance you can; abolish the slave trade around her, for she has already abolished it within her own territory, by destroying and utterly breaking up two of the largest slave marts on the west coast of Africa. And this I maintain is making progress in the right direction, and there is not now any thing like slavery in all her borders, though her enemies contend that there is, and I have had occasion to contradict the assertion in America, as well as here. I felt that it was due to the people of Liberia that I should do so.

Before I sat down to write to you, sir, I called on Mr. Ralston, the Liberian Consul, to know what changes had taken place, according to his last advices, in the affairs of the republic. I was glad to learn that no change for the worse had taken place, except the affair of the French slaver, as I would call her. He read a long extract from President Benson's last message to the Legislature, which was very satisfactory, I thought. Mr. Ralston, at the same time, requested me to call on an editor who had written against Liberia, to give him some information which he was anxious to have. I did so, and found him quite open to conviction, said he was glad to hear from one who had visited the country, that matters were not as bad as he had supposed, and that he was sorry for having misrepresented them, but that he did it upon what he considered good authority, but that he would in due time set the matter right.

And so, sir, having endeavored to say a word, in my poor way, in defence of the infant republic of Liberia, against the attacks of its enemies, I must beg you, in conclusion, to pardon the bungling manner in which these unconnected and hasty thoughts have been committed to paper.

I have not long returned from the country where I have been performing certain duties connected with the Col. C. S. S., and I am in great haste now, trying to get to Scotland.

If anything I have mentioned will tend to give you any satisfaction in reference to the affairs of that country, I shall be thankful.

Your humble, most obedient,
and obliged servant in the Gospel,
THOS. A. PINCKNEY.

The Late Balloon Tragedy in Illinois—Authentic Particulars.

The startling story of the late frightful ascent of two small children alone in a balloon, has naturally excited some incredulity, which in turn has been increased by the rather diverse accounts given of the event. But the return to our city of the aeronaut, Mr. S. M. Brooks, enables us to give an authentic confirmation and true version of the thrilling narrative. This gentleman kindly informs us substantially as follows:

He was to have ascended from the Fair Grounds at Centralia on Friday, the 17th inst., but finding his gas ill-inwell, accepted the offer of another aeronaut, Mr. Wilson, who volunteered to take his place in the balloon. Mr. Wilson effected a beautiful ascent, at 5 1-2 P. M., floated westward and then south-eastward, rising two and a half miles, and at about 6 1-2 P. M. descended, sixteen miles south eastward of the starting point. He was caught by a tree about forty-five rods from the farm-house of Mr. Benjamin Harvey. The spot is some two miles and a half from Rome, Jefferson county.

Mr. Harvey and his family, and others, gathered, and disentangled the airship. They then pulled the car to the ground and some boys held the ropes as the voyageur alighted, and while he was drawn off in conversation with the inquisitive people, the balloon was "rowed" to the house, and Mr. Harvey prepared to have some sport by rising the length of the rope, to be pulled down. Proving too heavy to rise, he stepped out and put in his three children, a lad of three years, a girl of eight, and a still older girl. At this point Mr. Wilson called out to those holding the ropes to be sure and hold fast. But the three children were too heavy, and the eldest was taken out. At this instant, through the unwatchfulness of the persons at the cords, the balloon suddenly and very swiftly went up! The anchor struck in a rail fence, but tore it away, while a cry of horror burst from the agonized group. The children screamed with horror, and the piteous appeal "*Pull me down father!*" as it instantly grew fainter and fainter, rendered the parents, and indeed all present, for the time perfectly frantic. It was now past seven o'clock, was becoming dark, and the balloon was soon lost sight of! A period of more intense wretchedness to the parental heart can scarcely be imagined.

As there was little wind, the balloon had gone almost directly upward, till its disappearance in a southeasterly course. Messengers were despatched through the region in every direction, and the alarm spread rapidly, meeting everywhere the listeners excited. G. SIMMONDS,
SOLE PROPRIETOR AND MANUFACTURER OF
PURE OHIO
Catawba Brandy.
THIS Brandy has been manufactured for several years from the pure juice of the Catawba Grape, thus affording additional evidence, of the progress of Ancient and Modern Industry, and of our ability to produce articles at home, equal to those made by any other nation.
The Ohio Catawba Brandy, not only equals but excels the best French Brandies in purity and flavor. It is a fact the best Brandy known. This statement is fully corroborated by the certificates of our most distinguished analytical chemists.
The Catawba Brandy has long been felt in the country, and the introduction of an article of such quality as to supersede the sale and use of those vile compounds hitherto sold under the name of Brandy, can only be regarded as a great blessing. The Catawba Brandy possesses all the good qualities claimed for the best imported cigars, and is of perfect purity and superior flavor, and a sovereign and sure remedy for

A CARD TO THE "LADIES."
Dr. Duponco's Golden Periodical Pills.
FOR FEMALES.
The combination of ingredients in Dr. Duponco's Golden Pills are perfectly harmless. They have been used in the private practice of old Dr. Duponco for over thirty years, an' thousands of ladies can testify to their great and never failing success in almost every case, in correcting irregularities, relieving painful and distressing menstruation, particularly at the change of life. From five to ten pills will cure that common, yet dreadful complaint, the Whites. Nearly every lady in the land suffers from that complaint. The above pill has proved equally successful in the old World as with you the them. They cannot harm you, on the contrary they remove all obstructions, restore nature to its proper channel, and invigorate the whole system. Ladies, whose health will not permit an increase of Family, will find these pills a successful preventative. Pregnant females or those suspecting themselves, are cautioned against using these pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their baldness would prevent any mischief in health—otherwise these pills are recommended. Full and explicit directions accompany each box. Price $1 per Box.

R. R. R.
A Young Lady, at Stephenson, New York, in the month of June, 1858, caught a bad cold. On the 28th of August, she had an attack of pneumo rage from the lungs. She bled three times in one night. She took Radway's Ready Relief, and has not bled since.
In all cases where persons are afflicted with Bleeding at the Lungs, take the Resolvent, in table-spoon doses, three times per day. Also, take internally, one teaspoonful of Radway's Ready Relief, in some water. It will instantly stop the most severe attacks. Keep the system regular, by tablespoons of Radway's Regulators per day. *As a Shipper*, Radway's Ready Relief is superior to all shippers in use. We have seen it stop violent bleeding of the nose, when all other means that were tried, failed. Bad Coughs, Colds, Consumption, in the earlier stages, the R. R. R. Remedies will positively cure.
N. B.—For all acute Pains, use Radway's Ready Relief. It will relieve the most excruciating pain in a few minutes.
R. R. R. is sold by C. Harrington, Brownell & Son, L. P. Lake, and J. H. Tazer, Milwaukee, and by Druggists everywhere. sep2d1aw2w

WEEKLY REVIEW OF MILWAUKEE MARKETS.

Trade and commerce in this region continue to pursue the even tenor of their way, steadily improving, and fast regaining the losses of the "panic year." Every branch of business during the past week has been fully equal to the preceding one, which we spoke of as being quite lively, and in many departments of trade an improvement has been realized. The condition of commercial affairs at the present time, compared with the corresponding period last year presents a pleasing contrast. Then all was disorder and disaster, now activity and prosperity reign throughout the land. Confidence is fast being restored, and the traces of the "great revulsion" are daily becoming obliterated.

Our produce market has been quite lively during the week, and an advance of 3a4c per bushel has been firmly established on spring wheat. The receipts are larger than for any preceding week within a year, being about two hundred and sixty thousand bushels of wheat, including flour. This is an increase over the receipts for the corresponding week last year, of nearly one hundred and fifty thousand bushels, or considerably more than double. The shipments of wheat for the week are not as large as the receipts, but, nevertheless, are much larger than the shipments for the same period last season. The prices of leading articles at the present time, compare as follows with the current prices at the same date last year:

	Sept. 25, '57.	Sept. 25, '58.
Wheat, spring	88a89	91a91
do winter	97a$1,00	$1c$1,12
Rye	60a65	65a75
Barley, common to choice	60a65	70a81
Oats	32a35	35a40
Corn	60a65	55a60

Last year the market was heavy and declining, and all the producers who could afford to do so, were holding back their grain; this year the markets are active and buoyant, very good prices are being paid for produce, and the farmers are rushing their grain to market as fast as it is threshed. The heavy receipts of produce here at this time are attributable to more than one cause. The improvement in the markets, of course, is the main power which sends forward so large a quantity of produce this season. It should be taken into consideration, however, in making comparisons, that our facilities for receiving and shipping grain, and our railroad accommodation have greatly increased since last year, and a vast space of country, the products of which now come to this market, then reached the sea-board through other channels. Beside, as the advantages which our market possesses over other western markets, become known, in the same ratio, does our produce business increase.

There has been no important change in our price list since last week, save that which we have spoken of in wheat. There has been a very active shipping demand for spring wheat during the greater part of the week, but the very high prices asked by holders have tended to check operations quite materially. The present prices here leave little or no margin for shipment to the east, according to the market reports furnished by telegraph and it has surprised us somewhat how they have been kept up. The New York market has been firm during the greater part of the week, with an important advance in wheat.

The range for No. 1 spring wheat here now is 91a94c and for extra grades 95a81, with a moderate demand for the latter. Winter wheat has not undergone any change to speak of since the date of our last review. Flour has been quiet, exhibiting a little more firmness towards the close of the week, and the range for country brands has been $4,81½a$5, for spring extras. The shipments are quite large. Barley, rye, corn and oats remain about as last noted. Highwines have declined about 2c.

The weather has been very pleasant all through the week. About this time, however, we may expect some severe stormy weather.

Our foreign advices for the week contain no feature of especial importance in a commercial point of view.

WHEAT—Market firm and tolerably active at 96c@$1 for extra spring, 94a95c for No. 1 do, 93a95c for No. 2 do, 93a93c for red winter, and $1a$1.12 for white do. On Monday the market made a spasmodic effort to settle itself at about 2a3c below Saturday's closing quotations, and there were sales of 500 bus extra club at 95c; 1,092 bus choice milling do at 97c; 14,760 bushels No. 1 spring fair, at 96c; 875 bushels do at 97c; 750 bushels do at 98c; 2,992 bushels choice do at 99c; 1,000 bushels do at 91c; 900 bushels No. 2 at 90c; 400 do at 86c; 875 bushels white winter at $1,05; and 130 bushels do at $1,10.

On Tuesday prices took another upward start, and the advance was nearly equal to the decline of the previous day, closing heavy however in consequence of unfavorable reports from the east. Among the sales were 850 bus ex. milling club at 97; 655 bus do at 98; 825 bus do at 95c; 280 bus fair do at 94c; 2,077 bus choice No. 1 at 93c; 272 bus do at 92½c; 5,980 bus do at 91c; 280 bus do at 90½c; 5,942 bus do at 90c; 975 bus fair do at 89c; 90 bus do at 87½c; 30 bus No. 2 at 86c; 112 bus inferior red winter at 92c

Wednesday, the market was rather active at prices of the day previous. The sales at the lower platforms were upwards of seventeen thousand bushels, as follows: 5,580 bus No. 1 at 90c; 4,875 bus do at 91c; 602 bus choice do at 92c; 875 bus fair extra at 94c; 955 bus do at 95c; 1,155 bus do at 96c; 350 bus choice extra at 97c; 550 bus white winter at $1,08.

The market closed firm on Thursday, at an advance of 1c on spring, with the following sales: 6,000 bus No. 1 at 91c; 6,575 bus do at 92c; 1,672 bus choice do at 93c; 462 bus common spring at 85c; 882 bus extra at 95c; 757 bus do at 96c; 809 bus do at $1,03, and 220 bus white winter at $1,03.

On Friday holders were asking an advance of 2c on No. 1, which was not very willingly acceded to on the part of buyers, and transactions, in consequence, were rather limited. There were sales of 690 bushels common spring at 90c; 675 bus do at 91c; 7,157 bus fair No. 1 at 92c; 1,695 bus do at 93c; 175 bus (Fife) at 74c; 357 bus extra at 93c; 525 bus do at 95c; 675 bus do at 97c; 765 bus choice do at 8⁴; 590 bus good white winter at $1,10; 160 bus do at $1,09; 865 bus fair do at $1,08, and 325 bus common white at $1.

PRICES—The rect pts for the week are between six and seven thousand bbls, and the shipments nearly eight thousand. We note the following sales of country brands: 100 bbls "Gothic Mills" spring extra at $5 f. o. b.; 50 bbls "White Creek Mills" delivered at $4,87½; 50 bbls spring extra $4,75 delivered; 100 bbls spring extra at $5 delivered; 50 bbls "Berlin City Mills" spring extra at $4,87½ f. o. b. The market was a little firmer toward the close of the week.

FRAMING—Have been very dull during the week, and many vessel owners bought cargoes and loaded on their own account. Rates, however, become firmer as the season advances, and we note an advance of 50c toward the close of the week. The following are the principal vessels chartered since last week: Sch. Enterprise, wheat to Kingston at 7c; sch Island Queen, wheat to Buffalo at 3c; sch. Republic, wheat to the same port at 4½c; sch Henry Hager, wheat to Buffalo at the same rate, the brig Saxon, wheat to Oswego at 7c.

OATS—The market for oats has not been very brisk during the week, and prices remain as noted in our last review. Good new oats have sold readily at 36c, and the range for old is 30a36c, though none but choice samples would bring the outside figures. New oats are generally very inferior, and the most of what arrive now do not bring over 30c.

CORN—Remains quiet at 55a60c, shelled. None coming in on the car. Receipts, as usual, light, with but little inquiry in the market.

BARLEY—Is somewhat firmer, and choice bright lots sell more readily at a little higher figures. The range is 75a85c for common to extra.

RYE—We have nothing new to note in regard to the market for rye. There has been very little sold during the week and prices are nominally the same, 60a65c per bushel.

BEAN—Quiet at 75a80c.

TIMOTHY SEED—Tolerably firm at 1,25a1,50.

CRANBERRIES—Very large quantities are coming in by the northern roads, and are being purchased for shipment at $1,50a$1,75.

POTATOES—Receipts for the week are very light, and in consequence the demand is more active at prices ranging from 35a40c. Some choice lots occasionally selling at a higher figure.

EGGS—Are very plenty and will not bring outside of 8c by the bbl.

BUTTER—Receipts are light, and there is a little better demand for fresh roll or packed at 14a15. Old firkin heavy at 10a13c

HIDES—Are in good demand at former prices; Green 5a5½c for fresh and salted; dry 12a15 for salted and flint.

HIGHWINES—Have declined 2c during the week. Selling to-day in large quantities at 21.

WHISKEY—Remains as before, 20a21c according to quantity.

SALT—$1,85 per bbl, delivered.

HAY—Market well supplied with timothy at $7a$9, and wild $5a$6 per ton.

WOOL—Best hard wool $3a3,25; common mixed $2,50 a$3.

SPIRITS—Alcohol, 50; Burning Fluid, 55c; Camphene 65c; Spirits Turpentine 60c.

OILS—Linseed, pure, 55c; do boiled 60c; bleached winter whale 75c in bbls, 75c in casks; bleached Elephant 80c in bbls, 90c in casks; Lard, No. 1, in bbls 90c.

WHITE LEAD—$7,50a$8 per ton.

CATTLE AND PROVISION MARKET.

The supply of beef Cattle has been fair for the past week, full up to the wants of Butchers. There has been several drovers in from the southern part of the State, to contract for October delivery. Good cattle have been contracted for $2,50 on foot.

HOGS—$4a$4,50 on hoof.

SHEEP—$2a$3 on foot.

PROVISIONS.

MESS PORK—Extra, $17,50 per bbl.

LIGHT do—$17,00 per bbl.

HAMS—Retailed at 12a14c.

SHOULDERS—None in market.

LARD—In par barrel; 11¾c in kegs.

LAYTON & PLANKINTON,
Bull's Head Cattle Market.

THE LUMBER TRADE.

The lumber trade for the past week has been quite brisk, the yards, most of the time, having as much as they could do to supply their customers. The demand seems to be on the increase, both by cargo and at retail, although the prices remain the same. Messrs. HOUGHTON, BROWN & CO. inform us that the cargoes of the following vessels were sold during the week:

Sch. Kirk White, Oconto.....$7,00
Sch. Preble, Oconto.....$7,00
Sch. Juniata Patton, Oconto.....$6,75

MONEY MARKET.

BANKING AND EXCHANGE OFFICE OF BRINSK BROTHERS, }
No. 166 EAST WATER ST., MIL., Sept. 25, '58. }

We have to notice a general improvement in most classes of business, and a greater activity in financial operations. The Banks continue to accommodate their customers to a fair extent, and at the same time an increased outside demand is observable. It cannot be disguised that there is an upward tendency, which only requires fostering to bring about a still better state of things at an early day. When we compare our position with that of some of our sister cities, we can but congratulate ourselves on the possession of a real bottom, and a recuperative power, which is gratifying indeed.

There is no sale for Land Warrants at present. The price at the East, however, remains firm, and we therefore quote as follows:

40's selling at	1,15	per acre.
80's	95	"
120's	58	"
160's	95	"

CHICAGO MARKET.

CHICAGO, Sept. 25.

Both Wheat and Corn have been quite firm to-day and prices of the former remarkably steady. An aggregate of some 41,000 bu wheat, mainly winter grades changed hands, during the morning; the market closing firm and unchanged. Quite a good demand exists for the higher grades and there is more activity among shippers.

Some 83 or 84,000 bu corn changed hands on a rather buoyant market. The demand for Canal and River was tolerably act ve and more business was done to-day than any day since July.

Oats continue dull and unchanged. Barley a shade lower, with numerous small sales at 48a50 for No 2, and 75a80 for No 1. Flour quiet with small sales of white winter.

Lake Freights improving. There is more inquiry by shippers and the lateness of the season gives holders advantages.—*Journal* of last evening.

MARINE INTELLIGENCE.

SCHOONERS ASHORE—We have been informed by Mr. KILGORE that two schooners, the *Gazelle* and *Caledonia*, while taking on cargos of wood at Hakeswolfe on Thursday afternoon, were driven ashore by the violent gale which occurred at that time. Our informant says that the vessels have not sustained much damage, and will be soon got off.—*Counties Advertiser*, sept. 25.
